The School Superintendents Association
1615 Duke Street
Alexandria, VA 22314

Dear ASSA Executive Staff, Chief of Staff and Director of Meetings and Awards:

We are writing to inform you of serious problems regarding Calvert County Public Schools Superintendent, recent past-president of the Public School Superintendents' Association of Maryland and subsequent default 2020 Maryland Superintendent of the Year Daniel D. Curry. As he is now advancing to be considered for the 2020 National Superintendent of the Year, we hope this letter will provide sufficient information to remove him from consideration.

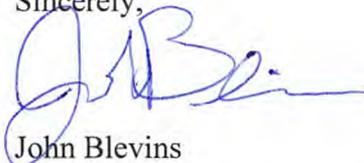

We are currently suing Calvert County Public Schools for withholding thousands of emails and financial records in violation of the Maryland Public Information Act and after that will be suing CCPS again. In April of 2018 we sent in a formal complaint to Daniel D. Curry and the Board of Education regarding abuse our daughter had experienced at Southern Middle School. Daniel D. Curry then ordered further abuse of her, and because we would not return her to school after she was set up and terrorized by a teacher and administrators and they called us from a blocked phone number, ordered retaliation against our sons at their respective schools in CCPS, forcing us to remove all of them and place them in private school. The Board of Education has been aware of all of this from the beginning, but three of the five Board members have long been uncaring, negligent, lazy, complicit, arrogant and selfish in their misuse and abuse of power and have been content to allow Curry to do their jobs for them. As a result, they do not wish to be made known for the variety of rampant sexual (including pedophilia), mental, emotional, physical and financial abuses our suits *will* expose, as well as myriad coverups pertaining to them. We want to be clear that it was none of our kids who were in *any* way groomed or otherwise sexually abused, but we are worried and scared for so many in the system who desperately need help. Daniel D. Curry deliberately fosters chaos and upheaval and routinely compromises and abuses the majority of educators in the system. The schools are often dangerous and unsupportive learning environments for students and educators alike, and he has demonstrated a vested interest and enjoyment in facilitating, hiding and protecting sexual abuse and abusers in the system. That is no accident, and indicative of his predilections and organizational strategy. For example, he has for many years written and spoken about "*planting seeds*" in respect to newborns he hopes to recruit into his infant or 0-3-year-old programs and is "*interested in them as soon as they arrive.*"

CCPS used to be a well-respected and well-run system, and the majority of educators in CCPS still are highly skilled and caring professionals. Over the last many years, the system has deteriorated to the point where the majority of educators in the system are subject to severe abuse by both students and administrators, and assaults and crimes are regularly committed in

the system without redress, with people who need and/or ask for help then facing further abuse. Daniel D. Curry is a *perverted*, lying, uncaring, entitled, narcissistic, vicious, sadistic, predatory, retaliatory, scheming and controlling monster, and we are convinced our suits will produce information which will result in his criminal prosecution. We have never received any cease and desist communications from anyone regarding our so far nineteen-month-long efforts, nor do we anticipate any. However, should we receive any, and because we are telling the truth, we would disregard them. Although what we are alleging is shocking and one would hope, impossible, we do not fear that anyone has even the slightest legitimate reason to take legal action against us.

Please check out a recent CCPS Board meeting, where numerous speakers (most of them teachers) described what they and so many others experience and endure in CCPS every day <http://calvertcountyps.swagit.com/play/10252019-501>. We have set up a website, www.calvertedudocs.com, and will continue adding information to it. Some of the information we have placed on the site are news articles, insulting and *highly* unsettling videos of Daniel D. Curry speaking at graduation ceremonies and Board meetings, blog posts of his, letters from our family documenting his abuse of people throughout the system, and other communications of his. We hope it would already be an impossibility for Daniel D. Curry to be selected the winner, and because there are surely many skilled and caring Superintendents up for consideration, that one of them will receive the award. However, in the event his carefully crafted façade is sufficient for him to be named a finalist; or God forbid, the winner, it would be an absolute travesty and affront to all he has ever harmed in his forty-five-plus-year career. We sincerely hope the award is given to one of the many eligible and deserving superintendents from around the country, who despite policy and funding limitations, do their best for everyone in the systems they run.

Sincerely,

John Blevins

Katharine Blevins
